

**Evaluation Criteria**  
RFQ-RT-03 00082

Evaluation Criteria to be included in paragraph (a) of provision 52.212-2 are as follows:

**(i) Technical Criteria:**

- (1) All equipment is to be serviced on-site.
- (2) Any travel or vehicle cost shall be included in price quoted.
- (3) The service provider shall provided a completed hard copy report summarizing service performed and any calibration data, on the day of service.
- (4) Reports shall be subject to the review and approval of the EPA Project Officer.
- (5)The format for the reports shall be agreed upon by the EPA Project Officer and the service provider prior to the commencement of any work.
- (6) Serviced equipment should have a sticker indicating the dates of services and the technician who performed the service.
- (7) All calibration must be performed by an ISO/IEC 17025 accredited provider .
- (8) All materials and test equipment used for calibrations shall be traceable to national or international certified standards, and appropriate documentation establishing such shall be provided to EPA.

**(ii) Price**

Price is considered of equal important to all other factors.

The Government intends to award a single purchase order to the responsible offeror whose technically acceptable quotation represents the best overall value to the Government . Offerors must satisfactorily meet all of the technical requirement to be considered “technically acceptable”.
